## Missions of the Special Schools and Commissions

The mission of the Special Schools Programs is to provide special education and related services to children with exceptionalities who are enrolled in State-operated programs and to provide appropriate educational services to eligible children enrolled in State-operated mental health facilities.

The mission of the LSMSA is to foster in its young scholars lifelong growth toward reaching individual potentials and toward finding places of work and service in a global society through the examination and exchange of ideas in a community of learners. The LSMSA provides residential instruction to academically and artistically advanced students from throughout the state.

The mission of Thrive is to empower at-risk students in underserved Louisiana communities and prepare them academically and personally for success in college and beyond.

The mission of the Louisiana Educational Television Authority (LETA) is to provide programming that is intelligent, informative, educational and entertaining for the citizens of Louisiana. LETA strives to connect the citizens of Louisiana by creating content that showcases Louisiana's unique history, people, places, and events. The Louisiana Educational Television Authority provides broadcast programming for education, information, and entertainment. It can be viewed on six broadcast channels and on its free LPB App.

The mission of the Board of Elementary and Secondary Education (BESE) is to provide leadership and create policies for education that expand opportunities for children, empower families and communities, and advance Louisiana in an increasingly competitive global market. The Board of Elementary and Secondary Education administers state funds for local educational agencies and manages monies from the Louisiana Quality Education Support Fund (8g).

The agency's mission is to provide professional arts training, coaching, and performance opportunities for high school level students who aspire to be creative artists.

## FY24 Recommended Budget Schedule 19B — Special Schools and Commissions

### 19B-659-École Pointe-au-Chien (new in FY24)

École Pointe-au-Chien is authorized by Act 454 of the 2022 Regular Session of the Louisiana State Legislature to provide a French immersion education program for the students of Terrebonne Parish between grades pre-kindergarten through fourth. The agency will be effective on July 1, 2023. It has one program- Instruction, with a FY24 recommended budget of \$500,000 in State General Fund. The agency will also receive MFP allocation of \$325,750 based on estimated student count of 35.

## FY24 Recommended Budget Schedule 19B — Special Schools and Commissions

### 19B-659-École Pointe-au-Chien (new in FY24)

The agency was allocated \$3 million for FY23, the Governing Board has a plan to spend these funds by December 31, 2023. Most of the \$3 million needs legislative approval to be carried forward to next fiscal year. The funds will be used for renovation or construction for the new school. *Beyond the \$0.5 m. SGF and \$325,750 MFP funding, the Board requests additional \$1 million and 8 authorized positions to be added in its FY24 budget.*

Beginning with the 2023-2024 school year, École Pointe-au-Chien will be located in the Knights of Columbus building in upper Pointe-aux-Chênes. Eventually, École Pointe-au-Chien will move to the site of the former Pointe-aux-Chênes Elementary building, which closed in 2021 due to a decision by the Terrebonne Parish School Board and then was damaged by Hurricane Ida. Renovations are expected to begin on the building later this year.

On March 13, 2023, the Board of Directors approved hiring two French teachers for the inaugural school year. Nine board members were present after being appointed by their respective state agencies or Indian Tribes (including the Consul General of France in Louisiana Nathalie Beras, ex officio, in an advisory capacity). In total, there will be 13 members serving on the board.

*Preference in enrollment will be given to families who live in Pointe-aux-Chênes, Isle de Jean Charles or former residents who were displaced due to Hurricane Ida or relocation from the island by the state, as well as the families of former students of Pointe-aux-Chênes Elementary. If spots are still available, enrollment will then open as a lottery to other students in the area or anyone with a demonstrated background or interest in Louisiana French.*

For the third consecutive report, Thrive did not ensure all payroll records were maintained and did not have adequate controls over employee leave records. In addition, Thrive failed to obtain proper approval for four contracts before incurring expenditures and procured professional, personal, consulting, and social services without initiating formal contracts as required. Thrive employees also did not accurately report information in the state's movable property system and did not maintain adequate documentation to support the information entered in the system. Prior-report findings related to noncompliance with records retention laws and weaknesses in controls over LaCarte card purchases were resolved.

### Board of Elementary and Secondary Education

### Minimum Foundation Program (MFP)

The Board of Elementary and Secondary Education administers state funds for local educational agencies, provides leadership, and creates policies for education statewide, including development of the Minimum Foundation Program (MFP) Formula.

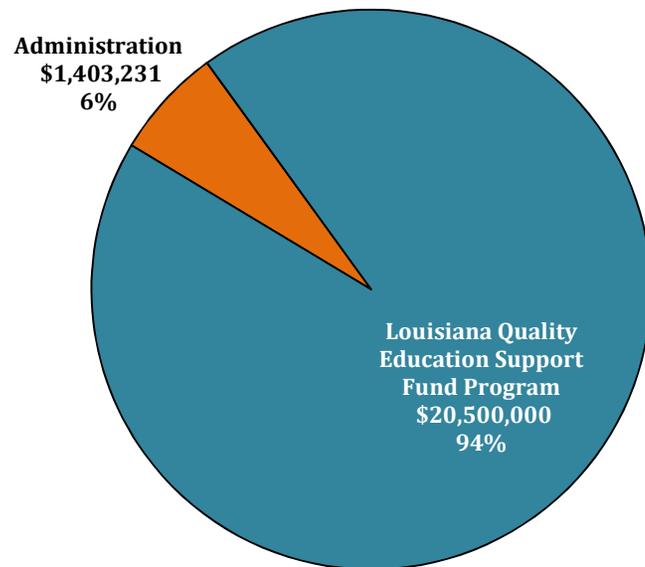

The Louisiana state constitution requires the state Board of Elementary and Secondary Education (BESE) to “annually develop and adopt a formula which shall be used to determine the cost of a minimum foundation program of education in all public elementary and secondary schools...” The MFP formula includes provisions to account for factors such as : student needs, wealth, and rewards for local tax effort. The formula ensures that the average state share of the cost of education is 65% and the school systems share on average is 35% of the cost.

For FY24, BESE submitted a proposal totaling \$4,281.7 million.
